

# Are You Ready For a Career In Home Health Care?

If you want to make a change in not only your career, but the lives of the individuals in your community who need your service, contact AccentCare **TODAY** and start on the path to a better way of providing care to those who need it most.

## TOP FIVE REASONS TO CHOOSE A CAREER IN HOME HEALTH CARE

1

### The joys of making a difference

Every day you get to see and treat your clients in the comforts of their own homes. You build a special relationship with them, along with their family, to make their health care experience a truly personal one, while enhancing their quality of life.

2

### Work-Life Balance

Home health care nursing professionals are able to fit their work schedule around their personal one. Whether you are continuing your education, raising a family, or making a return to the workforce, home health can offer you rewarding part-time and full-time opportunities to fit your schedule.

3

### Provide Skilled Care

Home health professionals impact the lives of patients who may have become depressed, less active and subject to other health concerns due to social isolation. You can provide them the care and social interaction they need as a great benefit to help improve their health in many ways.

4

### Helping clients remain comfortable at home

Families must often face the daunting task of placing their loved one in a nursing facility, but you can help change that decision. Home health care providers can take care of their clients in the comfort and safety of their own homes, close to their family and friends.

5

### Ability to work at the top of your licensure

As a Home Healthcare professional, you will work one-on-one with your clients to provide them customized care. Under the guidance of your supervising physician, you will develop plans of care and utilize nursing theories, skills and techniques to provide quality care to your clients on a daily basis.

**We are looking for clinical professionals like YOU to join our growing HOME HEALTH CARE teams**
