

Shape the Future of  
Biosimilars and Biologics

Dr.Reddy's 

# JOIN OUR TEAM

# Are you ready to be a part of something extraordinary?

Join our passionate and innovative team at Dr. Reddy's Laboratories Inc. and embark on an exciting journey to build a thriving biosimilars and biologics business that will make a real difference in the world of healthcare.

## Who We Are

At Dr. Reddy's, we are driven by a powerful vision to improve access to life-saving treatments through the development of biosimilars and biologics. With our unwavering commitment to quality, innovation, and patient well-being, we are leading the way in transforming the pharmaceutical industry by making innovative medicines accessible to those who need them.

## Our Core Belief

Good health can't wait. This reflects our commitment to act with speed and agility in bringing new medicines and innovation to patients with unmet needs around the world.

## Our Vision for Biosimilars and Biologics

We strive to be recognized by our customers and their patients as the partner-of-choice for biosimilars and biologics. We do this by leveraging our heritage in biosimilar development, manufacturing, and supply. While focusing on core therapeutic areas of Immunology and Oncology, we continue to demonstrate excellence in commercialization and customer engagement.

## Your Role

As a vital member of our team, you will play a crucial role in the growth and success of our biologics business. We are seeking talented and dedicated professionals who have a strong record of accomplishment in the biologics space to fill various positions. Ideal candidates will have significant experience in biologic or biosimilar product launches, as well as a passion for product commercialization and a deep understanding of the US healthcare market. Current positions include, but are not limited to:

### Research and Development

Be at the forefront of scientific innovation, working on groundbreaking projects to develop biosimilars that can change lives.

### Regulatory Affairs

Ensure compliance with industry regulations, helping to pave the way for the successful approval and launch of our biosimilars and biologics.

### Business Development

Identify new opportunities, build strategic partnerships, and drive the growth of our biosimilars and biologics business throughout North America and on a global scale.

### Quality Assurance

Uphold the highest standards of product quality and patient safety to deliver effective and reliable biosimilars and biologics.

### Manufacturing and Supply

Select and manage the right manufacturing and supply chain resources, whether they are in-house or contracted operations.

### Marketing and Sales

Showcase the value of our biosimilars and biologics to healthcare providers and patients, making a meaningful impact on their lives.

### Market Access and Payer Strategy

Build strategic partnerships with commercial and government payers, group-purchasing organizations (GPOs), and integrated delivery networks (IDNs).

## Your Growth

At Dr. Reddy's, we prioritize your professional development and well-being. Join us, and you'll have access to:

### Ongoing Training and Development

Enhance your skills, stay updated with the latest advancements, and grow alongside the industry's best.

### Global Opportunity

Collaborate with experts from all around the world, expanding your horizons and learning from a diverse and talented team.

### Impactful Work

Know that your efforts contribute to improved patient outcomes and a healthier world.

### Innovation and Collaboration

Work in a dynamic, forward-thinking environment where your ideas are not just valued but encouraged.

### Join Our Vision

If you are passionate about making a difference, eager to pioneer innovation, and committed to ensuring that biosimilars and biologics reach those in need, we want to hear from you. Become a part of our journey to shape the future of biosimilars at Dr. Reddy's. Your expertise, dedication, and enthusiasm will help transform lives.

## Ready to take the next step in your career?

Apply today, and let's build a brighter future together! *Reach out to us today!*

Join us and make a profound impact on healthcare. Together, we can lead the way in biologics and change the world for the better.

### About Dr. Reddy's Biologics:

- Dr. Reddy's is a global pharmaceutical manufacturer established in 1984. The company currently has over 20,000 employees across 56 countries.
- The company's biologics business began in 2001. The company has more than 20 years of experience in commercializing biosimilars across Asia, Latin America, and the Middle East.
- In 2014, Dr. Reddy's made the decision to pursue development programs for Developed Markets (ie. US, Europe, Japan) by initiating clinical development programs for our lead biosimilar assets.
- Dr. Reddy's currently has a pipeline of more than 10 biosimilar drugs in various stages of development across Immunology, Oncology and other specialty areas.

### Our Biologic Capabilities:

- Dr. Reddy's boasts a 20-year history in biosimilar development supported by a cadre of more than 200 research and development scientists from top universities in US, Europe and India.
- State-of-the-art manufacturing facilities inspected by regulatory agencies including the US Food and Drug Administration, the European Medicines Agency, and the Medicines and Healthcare Products Regulatory Agency (UK).
- Deep experience and expertise in working with regulatory agencies in developed markets.
- Proven experience and record of accomplishment in managing complex biosimilar trials to support regulatory filing and approval.
