

Spellman High Voltage:

Where you power a better future...for yourself and the world

Partner With Industry Experts

- Spellman is a **rapidly growing global leader** in the design and manufacturing of high voltage power supplies and X-Ray sources
- Do you enjoy **learning and innovation**? Come partner with Spellman teams to optimize products, processes and enhance your career
- We partner with our customers to **provide unique solutions that power a broad range of industries** including medical diagnostic imaging, scientific research equipment, airline security systems, food safety, semiconductor manufacturing, and underwater communication cables
- Our **global footprint**, agile processes, and robust infrastructure allow us to respond quickly and effectively to opportunities and disruptive events providing assuredness of supply to our customers and helping them grow

Create Genuine Impact

- **Make a difference with the Spellman Purpose** – we create innovative solutions that power advances in health, safety and quality of life
- **Medical:** applications in emergency medicine, cancer treatment, routine screening, surgical and all methods of diagnostic and interventional radiography (medical implants can now be based on individual human dimensions because of us!)
- **Semiconductor Processes:** chips and displays are essential for building everything that contains electronics in our lives today such as mobile phones and communication networks
- **Undersea Power:** critical infrastructure to keep the world connected and coordinated with data, video and voice (able to send pictures over your phone!)
- **Analytical Instruments:** provide information on proteins, drug research and formulation, immune response and all kinds of research
- **Airport and Border Security:** critical infrastructure items at our global airports and borders helping to deter terrorist threats and keeping the world's freight moving

Join A Socially Responsible Global Community

- Friendly working environment with a **culture that values work-life balance, engagement and passion**, along with a sharp focus on **diversity, equity & inclusion**
- Enjoy **robust benefits** such as health, well being, pension, profit sharing, training & development and much more
- **The best of both worlds:** enjoy all the advantages of a global company, with a “small office” feel; get to know your colleagues, participate in interesting work & have an impact
- Belong to a **private, family-owned company** that is dedicated to long-term growth, not short-term gain
- Voted one of *Newsday's* “**Top Places to Work**” on Long Island three consecutive years
- Employees enjoy **careers that span decades**, and have your voice heard via **Rewards & Recognition programs**
- **Environmentally conscious and socially responsible** organization, including sponsoring the annual global High School Clean Tech Competition, Green Power Car initiative, the Nueva Vida Shelter Project, and participating in food/coat/toy drives and many other charitable events
